

**DECO-LUM®**  
DECORATIVE GLASS

At Lumi, we are all about glass.

**DECO-LUM<sup>®</sup>**  
DECORATIVE GLASS

## A New Generation of Decorative Glass

For customers who demand high quality printing on a wide range of decorative and structural projects LGI presents you DECO-LUM<sup>®</sup>

Manufactured using a unique film, **DECO-LUM<sup>®</sup>** features exceptional compatibility with multiple lamination interlayers – PVB, EVASAFE (Bridgestone), PU, and Sentry Glass (DuPont). The film is permanently sandwiched between panels which provide the substrate additional protection, durability, and longevity. To that effect, **the product has undergone 2000 hours of direct UV exposure with “no fading in tones and colour”** thus outperforming other substitute products.

This product has a surprisingly fast turnaround. An order of less than 100m<sup>2</sup> may be generated in 10 working days after approval and sampling of artwork.

The Bamboo and Watermelon-Kiwi Kitchen

## Functional Features

- Excellent colour density / intensity
- Excellent image sharpness and clarity - graphics & text
- Excellent sharpness of text - no bleed of characters
